The effects will be noticed within 7 - 14 days and a check up will be needed on the 14th day to obtain the required results. The muscles will remain in a relaxed state for 3 - 4 months at which time a repeat treatment can be carried out.

FACIAL CONTOURING

Restylane is a crystal-clear gel form of hyaluronic acid, a substance that occurs naturally in the body. Hyaluronic acid holds water, hydrating and giving volume to the skin. As we get older the production of our natural hyaluronic acid diminishes, a simple injection of Filler replenishes the lost volume and improves your looks, by enhancing your facial profile, creating fuller lips and smoothing out lines and wrinkles.

HYDRA FACIAL

Skin Health for Life is the unique HydraFacial philosophy of not just improving the appearance of skin, but truly restoring youthful, healthy skin.

The signature treatment of HydraFacial, it gives immediate results and is designed to be enjoyed as a regular monthly maintenance treatment to rebuild skin health and provide continual improvement and enhanced appearance.

The treatment consists of six stages which detoxify the skin, remove dead skin cells, extract debris and provide lasting hydration to protect and rebuild collagen levels.

SIX STEPS TO BEAUTIFULLY HEALTHY SKIN:

- Step 1: Detox
- Step 2: Cleansing and Exfoliation
- Step 3: Skin Peel
- Step 4: Extraction
- Step 5: Hydration
- Step 6: Rejuvenation
- Step 7: Full face LED therapy

The Skin Health for Life treatment uses advanced, patented vortex technology to deliver the most desirable nutrients, like hyaluronic acid, to the skin. The treatment is also packed full of the most powerful antioxidants which work to counteract free radicals which damage the skin and cause it to look older than it is.

Your personal skin care package is tailored to your individual needs after a full consultation.

SKIN PEELS

REGIMA

This is a new cosmeceutical skin care range which can only be prescribed by a fully trained therapist. Only natural ingredients are used and it is not tested on animals. The small molecular structure of the product means that it is absorbed into the deep layers of the skin.

CHEMICAL SKIN PEELS (New age peel & heal)

This will repair your skin by removing dead skin cells and speeding up cell renewal. Excellent results can be achieved for Acne, Acne Scarring, Sun Damage, Pigmentation, Liver Spots and Wrinkles. During a consultation we will assess your skin and advise you of a treatment tailored to your needs.

Peel - £70

A complete RegimA skincare package is tailored for the individuals aftercare, to ensure full effect of this treatment.

T.C.A CHEMICAL SKIN PEELS

A deep skin peel used to effectively remove unwanted freckles, deep wrinkles and hyperpigmentation and scarring. The peeling process takes approx 1 week and the results are dramatic.

£70

PERMANENT MAKE UP

PERMANENT MAKE UP / NANO BROW (HAIR STROKES)

The celebrities makeup secret: Using micro-pigmentation (a process similar to tattooing), a pure pigment is implanted into the dermal layer of the skin. Each colour is custom blended to achieve perfect eyebrows and eye-liner that won't wash off.

Eyebrows

Eyeliner - Fine/Med

Eyeliner - Thick/Latino

Following the initial treatment customers are required to return 6-8 weeks later for second part of treatment. (included in price) **£299**

PRP DRACULA FACIAL

ADVANCED - PRP THERAPY **£300**

A small amount of blood is drawn from the patient into a sterile tube in the exact same manner as a standard blood sample. The tube containing a patients blood is placed into a centrifuge and spun to separate plasma and platelets from the other blood components. After a few minutes, the plasma and concentrated platelets are removed from the same tube and re- introduced into the patient at the site of the injury, scars, skin, obvious lines or wrinkles. Using a small sterile needle , your physician will inject the PRP in and around the desired site. Because the platelets are produced from your own blood, there is no risk of rejection or disease transmission.
